

# MEDICHEM LABS

A Global Hygiene Care Organisation

proudly presents **BIOZORBS**

An Indian Research for Global Application

According to\*Centre for Disease Control  
Guideline for Disinfection and Sterilization in  
Healthcare Facilities, 2008

“Blood spills or other human body fluids that occur inside or in the outside environment need to be decontaminated to prevent the potential transmission of communicable disease.”

Hygiene is a State of Mind

Until Yesterday, There Was No Hope!

Today there is **BIOZORBS**

Active Ingredient: Sodium Dichloroisocyanurate

Co-Ingredients: Carboxy Methyl Cellulose, Cross linked with acrylates.

Not degraded by high organic load.

Concentration of **Biosorbs** per Sq. Inch. of Blood Spill / Body Fluid expected to contain about 10,000 ppm of  $\text{AvCl}_2$

**Application :**

Biosorbs is a semi granular form. It is directly dusted over the spill.

Within seconds the fluid turns into a gel form.

The active ingredient approved by ICMR kills the pathogens in less than 5 minutes.

The Gel form is easily removed from the scene and disposed aseptically.

Presentation: 10 gram Sachet. 200 grams bottle container.

Long Expiry: Biozorbs has 2years expiry.

**Precautions:**

Keep in a cool dry place.

Do not swallow.

Keep away from children's reach.

Do not mix with any other chemicals other than body spills

An Original Research Product of
