

How Clean is "Clean"

Are routine cleaning jobs good enough ?

LOG9TM

cleans and kills the unseen

LOG9TM

cleans and kills the unseen

Micro-organisms are all around us on the floor, on the table, on the cutlery, plates, hands, so as to say everywhere. The world is in a BIOLOGICAL WAR against micro-organisms. Only a powerful BIOCIDES like LOG9 can effectively kill bacteria virus.

LOG9 is your trusted anti bacterial & cleaner at Malls, Restaurants, Gyms, Schools, Children Play area and a lot more.

LOG9 is a scientifically formulated disinfectant that exerts broad spectrum Microbicidal action against Bacteria, Fungi, Virus and Spores including CORONA VIRUS, SARS, MERS, HIV, HBV, TB. In areas where there are frequent and higher foot falls such as hotels & eateries, LOG9 is ideal. It cleans, disinfects the area for longer duration due to LOG9 residual activity. Simply speaking - LOG9 exerts its killing power long after the area is mopped clean.

No Wonder, you may find our products with some of the best institutions like Indian Institute of Science, Apollo Hospitals, International Airports, IT Corridors, just among a few of our many clients.
